

1. INTRODUCTION

A solvent boosted aqueous based foam cleaner designed for use on most hard surfaces.

SAS32 – 500ml Aerosol

2. WHERE TO USE

On all water resistant “hard” impervious substrates.

3. WHERE NOT TO USE

- On some painted surfaces or thermoplastics, without first assessing suitability of use on an inconspicuous area.

4. BENEFITS

- Good foam stability.
- Dissolves grease and grime.
- Foaming formula allows use on vertical surfaces.
- Smear free finish.
- Pleasant lemon fragrance.

5. PHYSICAL PROPERTIES (Cleaner base except where stated).

Appearance	A strongly foaming liquid with a lemon odour.
pH	11 +/- 1.0
Specific Gravity	0.99 +/- 0.01
Non Volatiles % m/m	<3
Active Content % m/m, as supplied	80 – 90
Viscosity @ 20 C	Free flowing liquid.
Flammability, as supplied	Extremely flammable, flash point below -20 C.
Composition Data, as supplied	An aqueous solution containing propan-2-ol, acetone, 1-methoxy-2-propanol, amphoteric and anionic surfactants, corrosion inhibitors including sodium nitrate, synthetic lemon fragrance, mixed amines and ammonium hydroxide in butane/isobutene/propane propellant.
Service Temperature	Designed for use at ambient temperatures.

6. APPLICATION DETAILS

Shake can thoroughly before use. Spray onto hard surfaces from a distance of 20 – 25 cm. Allow foam to develop, and wipe clean with a clean cloth.
