

1. INTRODUCTION

A highly concentrated fabric and upholstery cleaner which is suitable for cleaning all vehicle carpets, upholstery and vinyl.

SAS1032

2. WHERE TO USE

- On vehicle carpets, upholstery, vinyl and plastics.

3. WHERE NOT TO USE

- On leather or suede.
- On bodywork or paint finishes.
- On bare metallic non ferrous alloy surfaces.

4. BENEFITS

- Low foam
- Dual action, cleans and freshens.
- Suitable for use on interior carpets and seat upholstery.
- Contains fabric conditioners.
- Contains optical brighteners.
- Economical – dilutable up to 1:50

5. PHYSICAL PROPERTIES

Appearance	Clear pale blue liquid
pH (10% aqueous solution)	8.5 – 1.0
Specific Gravity	1.035 +/- 0.015
Flammability, as supplied	Non flammable
Composition Data, as supplied	An aqueous solution of surfactants, water softeners, optical brightener, fragrance and dye.
Viscosity	Low viscosity
Non Volatiles %m/m	5 -10%
Application Temperature	For use on cool surfaces, at ambient temperatures.

6. APPLICATION DETAILS

For manual use dilute 1:10 with warm water. Mix liquid and aerate to produce foam. Apply foam to surface to be cleaned, so avoiding over-wetting. Agitate with soft brush or sponge paying particular attention to areas of heavy soiling. Wipe away with clean damp cloth.

For machine application: add to machine tank to a maximum dilution of 1:50
