**1. Introduction**

A water based barrier cream providing protection of hands against oils, greases and general dirt and grime. This product contains a range of conditioners, humectants and emollients designed to retain skin softness and replenish skin moisture and natural oils. It also contains a powerful, wide-spectrum anti microbial agent for added protection against skin infections.

**2. Where to use**

For prophylactic applications on hands prior to exposure to workplace irritants and contaminants.

**3. Where not to use**

- For application to hands only.

**4. Benefits**

- Resistance to a diverse range of organic substances including oils, greases, coatings etc.
- Resistance to a wide range of water based substances and insolubles including dilute acids and alkalies, dirt grime, grit etc.
- Ease of use, non greasy
- Fast absorption into the skin
- Easily removed using soap and water.
- Pleasant fragrance
