Cleaning System Code: C15

### 1. Introduction

A fragrance free washing-up liquid with bactericidal properties designed for fast and easy removal of greases, fats, dried foodstuffs, lipstick and other deposits from plates, glass, cutlery and cooking utensils. This product will not taint treated surfaces and is based upon surfactants all of which are fully biodegradable.

### 2. Where to use

For all general purpose catering applications. This product is suitable for use in hot or cold water and is free of potentially sensitizing fragrances.

### 3. Where not to use

No specific limitation.

### 4. Physical properties.

Appearance	A semi-viscous bright green liquid with a bland soapy odour.
pH, Nominal	10.2
pH [10% in water], Nominal	9.65
pH [In use concentration], Nominal	7.5
Specific Gravity	1.016
Viscosity @ 20°C	800 – 2,000 cPs at 20°C
Active Content % m/m	15 – 30%
Flammability	This product is not flammable.
Composition Data	An aqueous solution of anionic, non-ionic and amphoteric surfactants and wetting agents, preservative, and water soluble dyes.

### 5. Application Details

When diluted for use in accordance with the instructions supplied, the wash liquid is not classified as Irritant according to the Chemicals (Hazard Information for Supply) Regulations, [CHIP4].

Prepare a solution containing up to 0.15% [30ml/20 litres] of Washing-up Liquid in hot or tepid water, and agitate by hand to dissolve and form a foam. Immerse or wash the implements using a cloth or sponge and rinse with clean water. Allow to air dry, or wipe dry with a clean dry cloth to give a sparkling finish on glass.

This product has been assessed to EN1040 where it attains a kill level of over 99.9%. Used as supplied to treat sponges or dishcloths this product will significantly reduce bacteria levels.

Following use, rinse hands in plenty of warm water, and dry thoroughly with a clean dry towel.

### 6. Availability

5 Litre plastic jerricans.
