

**MATERIAL SAFETY DATA SHEET
STEROCREPE**

PRODUCT CODE: VARIOUS

PRODUCT NAME: STEROCREPE BANDAGE

USE: For bandaging to give support to aches pains strains etc, single use. Can be cut to size. For external use only. Does not contain latex.

Physical Description / Properties

Appearance and Odour:	Cream coloured knitted bandage, constructed from cotton.
Melting Point/Boiling Point:	N/A
Vapour Pressure:	N/A
Specific Gravity:	N/A
Flashpoint:	N/A
Solubility in Water (g/L):	N/A
Percent volatile by volume:	N/A

Components

Cotton
Cellophane wrap

Health Hazard Information

Health Effects

Acute

Swallowed: Not a likely route of exposure. If swallowing did occur, it may cause gastrointestinal irritation, nausea and dizziness.

Eye: Not a likely route of exposure.

Skin: Prolonged skin contact or repeated exposure not likely to cause significant skin irritation unless there was a pre-existing skin disorder. Symptoms may include redness and itchiness.

Inhaled

Chronic

First Aid

Swallowed: In the unlikely event that a bandage piece was swallowed. Do not induce vomiting. Give water. Get medical attention.

Eye: Eye

Skin: Unlikely Wash thoroughly with soap and water

Inhaled
First-Aid facilities: Eye wash plus normal washroom facilities nearby.
Advice to Doctor: Treat symptomatically.

Precautions for Use

Wearing: Not recommended to wear overnight due to possible circulation problems.
Incorrect size used: Do not over tighten when bandaging May result in circulation problems.
Flammability: The bandage is non-flammable. Packaging is a combustible solid.

Safe Handling Information

Storage and Transport: Store in a cool (25 C) dry place.
Spills and Disposal: Dispose of in accordance with local waste regulations. May be incinerated in an approved facility.
Used: soiled bandages may be required to be disposed of in accordance with the local authority's infectious waste requirements
Fire or Explosion hazard: No fire or explosion hazard.
Packaging material: combustible solid.
Extinguishing Media: According to the surrounding area. Any standard fire extinguisher may be used.

Other Information

Stability and Reactivity: Stable at room temperature.
Conditions to Avoid: Heat.
Incompatible Materials: Avoid contact with strong oxidising agents.
Hazardous Decomposition Products: Carbon monoxide
Classification: Class I - Medical Device

Date of First Issue: April 2003

Reviewed: October 2011

MATERIAL SAFETY DATA SHEET

IDENTIFICATION

BLUE NITRILE GLOVES

PRODUCT NAME: Nitrile Examination Gloves

Description of product: Ambidextrous, beaded cuff, smooth Nitrile Gloves
Colour: Blue and uniform allowing for gradual shift due to thickness variation.
Storage Conditions: The gloves shall maintain their properties when stored in a dry condition. At temperatures between 10°C to 30°C. Avoid direct sunlight.
Shelf Life: The gloves shall have a shelf life of 5 years from the date of
Manufacture with the above storage conditions.
Packing Style: 100 gloves per carton–10 Boxes per shipper case.

Performance Requirements

Characteristics: Standard	Inspection Level	Acceptable Quality level	Reference
Tested to Standard			EN 374-1
Dimensions	Median of 13 pieces tested		EN4552-00
Freedom from holes (Barrier) GI (1000ml Water Leak Test)		1.5	EN455-1-00
Visual Defects:			
Major Visual		GI 1.5	In house
Minor Visual		2.5	
Powder Amount D6319-00		N=2	N/A ASTM
Powder Content D6319-00		N=3	N/A ASTM

DIMENSIONS

Property	Size	In House Standard
Length (mm)	All Sizes	Min 240
Palm Width (mm)	S	80 +/- 10
	M	95 +/- 10
	L	110 +/- 10
	XL	120 +/- 10
Thickness (mm) * Single Wall		Finger: Min 0.15 Palm: Min 0.13 Cuff: Min 0.10
Unit Weight (gram)	S	6.0 +/- 0.5
	M	6.7 +/- 0.5
	L	7.3 +/- 0.5
	XL	7.8 +/- 0.5

Physical Properties

Elongation at break (%)-Average	900	800
Tensile Strength (Mpa)-Average	21	18
Stress at 500% Elongation (Mpa)	18	N/A
Median Force at Break (N)	Min 9	Min 9

SAFETY DATA SHEET

STEROSTRIP

Product Name: STEROSTRIP WASHPROOF PLASTERS

Product Code: Various.

USE: Disposable single use flesh coloured sterile plasters. Cleaning of minor cuts and grazes. For external use only.

Physical Description / Properties

Appearance and Odour:	White lint is adhered with an acrylic Hypo-allergenic adhesive (Latex Free) to a P.E. substrate. Individual plasters are sealed in a coldseal wrap and sterilised by gamma irradiation or EO.
Melting Point/Boiling Point:	Not determined
Vapour Pressure:	N/A
Specific Gravity:	N/A
Flashpoint:	N/A
Solubility in Water (g/L):	N/A
Percent volatile by volume:	N/A

Components

Hypo-allergenic Acrylic Adhesive – Latex free
White Non-Woven Lint
Flesh P.E. Substrate
Silicone Release Paper
Coldseal Wrapper – Latex free

Health Hazard Information

Health Effects

Acute

Swallowed:	Not a likely route of exposure. If swallowing did occur, it may cause gastrointestinal irritation, nausea and dizziness.
Eye:	Not a likely route of exposure.
Skin	Prolonged skin contact or repeated exposure not likely to cause significant skin irritation unless there was a pre-existing skin disorder. Symptoms may include redness and itchiness.
Inhaled:	Not a likely route of exposure.

Chronic: Not likely.

First Aid

Swallowed: In the unlikely event that a plaster was swallowed. Do not induce vomiting. Give water. Get medical attention

Eye: Not likely

Skin: Wash thoroughly with soap and water

Inhaled: Not likely

First-Aid facilities: Eye wash plus normal washroom facilities nearby.

Advice to Doctor: Treat symptomatically.

Precautions For Use

Flammability: The plaster is non-flammable. Packaging is a combustible solid.

SAFE HANDLING INFORMATION

Storage and Transport: Store in a cool (25 C) dry place.

Spills and Disposal: Sterility not guaranteed if wrapper is open or damaged
Dispose of in accordance with local waste regulations. May be incinerated in an approved facility.
Used: plasters may be required to be disposed of in accordance with the local authority's infectious waste requirements

Fire or Explosion hazard: No fire or explosion hazard.
Packaging material: combustible solid.
Extinguishing Media: According to the surrounding area. Any standard fire extinguisher may be used.

OTHER INFORMATION

Stability and Reactivity: Stable at room temperature.
Conditions to Avoid: Heat.
Incompatible Materials: Avoid contact with strong oxidising agents.
Hazardous Decomposition Products: Carbon monoxide

MATERIAL SAFETY DATA SHEET

NON-WOVEN TRIANGULAR BANDAGE

Product Code: 9560

Product Name: NON-WOVEN TRIANGULAR BANDAGE

USE: For bandaging and support to be used over protected cuts and bruises, sprains aches and pains. Most popular use is as a sling for the arm. Single use. Can be cut to size. For external use only. Does not contain latex.

Physical Description / Properties

Appearance and Odour:	White spun bonded polypropylene bandage, cut and folded to a triangular size.
Melting Point/Boiling Point:	N/A
Vapour Pressure:	N/A
Specific Gravity:	N/A
Flashpoint:	N/A
Solubility in Water (g/L):	N/A
Percent volatile by volume:	N/A

Components

Polypropylene
Polybag

Health Hazard Information

Health Effects:

Acute:

Swallowed:

Not a likely route of exposure. If swallowing did occur, it may cause gastrointestinal irritation, nausea and dizziness.

Eye:

Not a likely route of exposure.

Skin:

Prolonged skin contact or repeated exposure not likely to cause significant skin irritation unless there was a pre-existing skin disorder. Symptoms may include redness and itchiness.

Inhaled:

Not a likely route of exposure.

Chronic:

Not likely.

First Aid

Swallowed:

In the unlikely event that a bandage piece was swallowed. Do not induce vomiting. Give water. Get medical attention.

Eye: Not likely
Skin: Unlikely. Wash thoroughly with soap and water
Inhaled: Not likely
First-Aid facilities: Eye wash plus normal washroom facilities nearby.
Advice to Doctor: Treat symptomatically.

Precautions For Use

Wearing: Not recommended to wear overnight
Incorrect size used: Do not over tighten when bandaging. May result in circulation problems.
Flammability: The bandage is non-flammable. Packaging is a combustible solid.

MATERIAL SAFETY DATA SHEET

IDENTIFICATION

STEROPLAST STERILE SALINE WIPE

Product Code: **9021/SS , 9021B**

Product Name: **STEROWIPE-SALINE**

Use: Disposable wound cleansing wipe. Can be used on broken skin.
For cleansing of cuts, wounds and abrasions. For external use only.

Physical Description /Properties

Appearance and Odour: White non-woven hydro entangled fabric swab impregnated with an 0.9% Saline Solution. Individual swabs are sealed into flexible laminate sachets

Melting Point/Boiling Point: Not determined

Vapour Pressure: As for water

Specific Gravity: 1.000

Flashpoint: Nil

Solubility in Water (g/L): Solution is miscible in water

Percent volatile by volume: Percent volatile by volume

Ingredients

Chemical Name	CAS No	Proportion
White Non-Woven Swab Cloth	-	30-60%
Water	7732-18-5	50-99%
Sodium Chloride solution.	8028-77-1	0.9%

Health Hazard Information

Health Effects

Acute

Swallowed: Not a likely route of exposure. If swallowing did occur, it may cause gastrointestinal irritation, nausea and dizziness.

Eye: May cause eye irritation by direct contact with the eye.

Skin: Prolonged skin contact or repeated exposure not likely to cause significant skin irritation unless there was a pre-existing skin disorder. Symptoms may include redness and dryness.

Inhaled: Only slightly harmful if inhaled.

Chronic: Chronic or repeated exposure may cause eye irritation respiratory tract irritation, and defatting of the skin, leading to irritation and dermatitis.

First Aid

Swallowed:	In the unlikely event that a wipe was swallowed. DO NOT induce vomiting. Give water. Get medical attention.
Eye:	In the unlikely event , rinse eye with water for 15 minutes, whilst lifting eyelid. Get medical attention if effects persist.
Skin:	In the unlikely event wash thoroughly with soap and water.
Inhaled:	Move individual to fresh air. Seek medical attention if effects persist. Restore and/or support breathing as required.
First-Aid facilities:	Eye wash plus normal washroom facilities nearby.
Advice to Doctor:	Treat symptomatically.

Precaution For Use

Engineering Controls:	In the unlikely event provide good ventilation.
Personal Protection:	In the unlikely event avoid prolonged skin and eye contact. Avoid breathing vapours in enclosed spaces. Ensure good dilution ventilation is available.
Flammability:	The impregnated swab is non-flammable. Packaging is a combustible solid.

Safe Handling Information

Storage and Transport:	Store in a cool (25 C) dry place.
Spills and Disposal:	Place used or broken sachets in a sealed, labelled container for disposal. Dispose of in accordance with local waste regulations. May be incinerated in an approved facility. Used: wipes may be required to be disposed of in accordance with the local authority's infectious waste requirements.
Fire or Explosion hazard:	Impregnated sachets: no fire or explosion hazard. Packaging material: combustible solid. Extinguishing Media: According to the surrounding area. Any standard fire extinguisher may be used.

Other Information

Stability and Reactivity:	Stable at room temperature. Conditions to Avoid: Heat. Incompatible Materials: Avoid contact with strong oxidising agents. Hazardous Decomposition Products: Carbon monoxide. Hazardous Polymerisation: Will not occur
Environmental Issues:	No environmental issues expected
Shelf Life:	5 years
Date of Issue:	March 2011

This Data Sheet summarises our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this data sheet and consider the information in the context of how the product will be handled and used in the workplace including in conjunction with other products. If clarification or further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company.
