

FACT SHEET

Product Name	SAS Highly Concentrated Vehicle Shampoo
Product Code	SAS2011
Date	25/05/16
Supplier's name and address	SAS Attack, Gelderd Road, Leeds LS12 6NA

SAS Highly Concentrated Vehicle Shampoo is a pleasantly Coloured and scented shampoo that cuts through dirt with ease. Despite this, it will not strip existing layers of wax. Special lubricants give a smooth feel as you wipe exterior surfaces clean, while long lasting suds help to lift dirt particles safely away. In addition to performing well, this shampoo also works out to be very economical thanks to its generous dilution ratio of 1900 parts water to 1 part solution

SAS Highly Concentrated Vehicle Shampoo when diluting 1:1900 with water is about 25x as concentrated as some high street car shampoos.

Directions for use

Rinse your car with water first to loosen any dirt. Dilute 2 caps of product in to 20L of water. Apply the product to your cars surface while still wet using a soft sponge or lamb's wool wash mitt (recommended) to thoroughly clean. Finally rinse off.

We hereby confirm that the above product meets all the required manufacturing specifications and Quality Control procedures as implemented by SAS Attack.
