

**1. INTRODUCTION**

An alcohol based aqueous cleaner designed primarily for glass, and other reflective substrates.

SAS16 – 500ml Aerosol

**2. WHERE TO USE**

On all water resistant 'hard' non-porous substrates, particularly glass and other reflective surfaces for light duty cleaning. This product has an extremely wide range of uses, and a high level of detergency suitable for removal of hairspray deposits, lipstick, nicotine, etc.

**3. WHERE NOT TO USE**

- On coated glass without first assessing suitability of use on an inconspicuous area.
- In direct sunlight.
- On large surfaces. If doing so, always work in small manageable areas. Do not allow to dry on the surface before removal.

**4. BENEFITS**

- Extremely versatile.
- Fast acting.
- Low foaming.
- Streak free use.
- Virtually residue free.
- Pleasant clean fragrance.

**5. PHYSICAL PROPERTIES (Cleaner base except where stated).**

Appearance	A weakly foaming liquid with a mild lemon/ammonia odour.
pH	10.0 – 11.5
Specific Gravity	1.00 +/- 0.02
Viscosity @ 20 C	Free flowing liquid
Non Volatiles % m/m	<0.4
Active Content % m/m, as supplied	75 – 95
Flammability, as supplied	Extremely flammable, flash point below -20 C
Composition Data, as supplied	An aqueous solution containing propan-2-ol, non-ionic surfactant, ammonium hydroxide and a synthetic lemon perfume in butane/isobutene/propane propellant.
Service Temperature	Designed for use at ambient temperatures.

**6. APPLICATION DETAILS**

Shake well before use. Spray onto the surface from a distance of 20 – 25cm. Wipe over the surface with a soft cloth. Remove with a clean dry cloth turning frequently, buffing to a clean, dry state.
