

Material Safety Data Sheet

Date of Issue: 29/01/04

Supercedes: All Previous

The information contained in this leaflet is provided to enable the user to assess the product and should not be taken as a specification. All information provided is given good faith we can however not assume liability. It is up to the user to ensure that the information and the product is suitable for use intended.

1. Identification of Preparation and Company

| | |
|----------------|---|
| Product | Granville Silicone Sealant |
| Company | Granville Oil & Chemicals Limited 29 Goldthorpe Industrial Estate Goldthorpe Rotherham S Yorkshire S63 9BL Tel (+44) 01709 890099 Fax (+44) 01709 891121 |

2. Composition & Information on Ingredients

Mixture of polydimethyl siloxandiol and polydimethyl siloxane with fillers, pigments and a cross linking agents.

| Ingredients | %Wt | EEC No | CAS No | CHIP |
|-----------------------------|------|--------|------------|--------|
| Classification | | | | |
| Methysilanetriyl Triacetate | 5max | | 4253-34-3 | R34 |
| Triacetoxymethylsilane | 5max | | 17689-77-9 | R14-34 |
| Propyltricetoxysilane | 5max | | 17685-07-5 | R34 |

3. Hazards Identification

Skin contact may produce irritation. Acetic acid evolved in reaction with water.

4. First Aid Measures

Inhalation Keep patient warm and at rest, obtain medical attention if symptoms persist.

Skin Contact Remove contaminated clothing and wash affected area with soap and water or a recognised skin cleanser.

Eye Contact Irrigate the eye with copious amounts of eyewash solution or clean water, holding the eyelids apart for at least 15 minutes. Obtain medical attention if symptoms persist.

Ingestion Keep patient warm and at rest give patient water to drink. Do not induce vomiting. Seek medical advice.

5. Fire Fighting Measures

Extinguishing Media

Water fog, foam, dry powder or CO₂

Do not use water jets

Hazardous Decomposition Products

Fire may liberate harmful combustion products

Special Fire Fighting Precautions

Fires in enclosed spaces should only be tackled by trained personnel wearing breathing apparatus

6. Accidental Release Measures

Absorb spillage on to sand, earth or inert material, ventilate area, sweep up and transfer to a sealable container for disposal. Ensure suitable personal protective equipment is used during removal of spillage. Wash the spillage area with water.

7. Handling and Storage

Handling: Avoid contact with skin and eyes. Open in well ventilated area. Use local ventilation where appropriate and follow principles of good occupational hygiene to control personal exposures.

Storage: Store containers in a cool dry place below 30deg. C.

8. Exposure Controls / Personal Protection

Respiratory Protection Not normally required

Hand Protection Suitable gloves should be used if product is used intensively over long periods

Eye Protection Wear safety glasses or goggles.

9. Physical and Chemical Properties

Appearance: Viscous Paste (Various Colours)

Odour: Pungent - acetic acid

Flash Point: Greater than 320deg. C.

Relative Density: 1.04

Solubility (water): Negligible

10 Stability and Reactivity

Product is stable under normal conditions.

Hazardous reactions: Acetic acid can be evolved by reaction with water.

Hazardous decomposition: Decomposes at 250 deg.C. No known hazardous products.

11 Toxicological Information

Inhalation Possible irritation by evolution of acetic acid.

Skin Contact Repeated or prolonged contact may cause irritation.

Eye Contact May cause irritation.

Ingestion Hazardous if swallowed.

12 Ecological Information

No information available.

13 Disposal Considerations

Material should be disposed of in accordance with national, local or state legislation.

14 Transport Information

Not classified as dangerous for all modes of transport.

15 Regulatory Information

EEC Supply classification and labelling. Irritant (xi).

16 Other Information
